

Power Mapping: City/County

Name three groups/organizations etc in each category below and their role in the city/county.

Consider:

- Who/what are influential in and around your county that might be related to the issue area?
- Are they or their influence concentrated in a geographic part of the county?
- Where are there concentrations of people, land, and/or money?
- What is the overlap and connections between the leaders of different sectors?
- Who is in the headlines and why?
- What are the points of pride this place is known for? Who is in charge of that?

City/County

Think about your city/county:

- Who/what are influential in and around your county that might be related to the issue area?
- Are they or their influence concentrated in a geographic part of the county?
- Where are there concentrations of people, land, and/or money?
- What is the overlap and connections between the leaders of different sectors?
- Who is in the headlines and why?
- What are the points of pride this place is known for? Who is in charge of that?
- Do you have a personal connection that knows an individual or organization on this map personally? ?

Feel free to draw more bubbles and add lines to represent the stakeholders and community connections.

Place each of the groups named above on the map below

Consider looking at your individual network map to look at where you might have opportunities to build power
